Hello there, I need your help to write the introduction of a forensic report.

Here is the mandate I received:

"Date: 01.10.2023

Description: Following an international arrest warrant, two individuals, Mr Francesco Sforza and Mr Tim Pressive, were arrested in Lausanne on 25 February 2019. They are suspected to be part of a criminal organization responsible for stealing the US Declaration of Independence. Two phones were taken from the suspects: (1) a Samsung Galaxy S6 Edge from Mr Pressive, and (2) an iPhone 6 from Mr Sforza. For examination purposes, a mugshot of Tim Pressive is provided to the experts. For unknown reasons, the mugshot of Francesco Sforza was corrupted, and the mandating services do not currently possess an image of Mr Sforza. Due to Mr. Sforza having been extradited to Iraq in March of 2020, a demand for international legal assistance had to be brought to the Iraqi Department of Justice and is currently under review. As it is unlikely that the request can be fulfilled in time, the experts are asked to answer the questions stated in the mandate without a reference image of Mr. Sforza as far as possible.

Mandate: Using the information provided, we ask you to answer the following questions:

- i. Where was Mr Sforza in January and February 2019?
- ii. Where was Mr Pressive in January and February 2019?
- iii. Did Mr Sforza and Mr Pressive meet during this period?
- iv. Did Mr Sforza and/or Mr Pressive take part in any illegal activities during this period?
- v. In particular, are Mr Sforza and/or Mr Pressive implicated in the theft of the US Declaration of Independence?

We request that you answer these questions before the 12th of October 2023

Forensic Report Introduction

Case Title: Investigation into the Activities of Mr. Francesco Sforza and Mr. Tim Pressive in January and February 2019

Date: October 1, 2023

Mandate: Investigator X

In response to an international arrest warrant issued on an ongoing investigation, this forensic report seeks to shed light on the activities of two individuals, Mr. Francesco Sforza and Mr. Tim Pressive, during the months of January and February 2019. The investigation was initiated following their arrest in Lausanne on February 25, 2019. Both individuals are suspected of affiliating with a criminal organization allegedly involved in the theft of the United States Declaration of Independence.

Two mobile phones were confiscated from the suspects as part of the evidence gathering process: (1) a Samsung Galaxy S6 Edge belonging to Mr. Tim Pressive, and (2) an iPhone 6 belonging to Mr. Francesco Sforza. Additionally, for examination purposes, a mugshot of Mr. Tim Pressive has been provided to forensic experts. Regrettably, the image of Mr. Francesco Sforza's mugshot has been corrupted, and, due to extradition to Iraq in March 2020, efforts to obtain an updated image remain pending with the Iraqi Department of Justice.

Given the pending status of the request for international legal assistance regarding Mr. Sforza's image, the investigating team faces the challenge of conducting its analysis without visual reference to Mr. Sforza. Notwithstanding this limitation, the mandate necessitates answers to the following critical questions:

- I. Where was Mr. Francesco Sforza located during January and February 2019?
- II. Where was Mr. Tim Pressive located during January and February 2019?
- III. Was there any documented evidence of an encounter or meeting between Mr. Sforza and Mr. Pressive during this two-month period?
- IV. Did Mr. Sforza and/or Mr. Pressive engage in any illicit activities during January and February 2019?
- V. In particular, is there any indication of Mr. Sforza and/or Mr. Pressive's involvement in the theft of the United States Declaration of Independence?

In compliance with the mandate, this forensic report endeavors to address these pivotal questions before the looming deadline of October 12, 2023, providing a comprehensive analysis of the available evidence and information.
