LLM answer:

The following data was collected from the chat between user "Wonder Woman" and "Tim Pressive". The chat started at UTC 5.02.2019 07:16:04 (GMT + 010:000:04 AM) and ended at UTC 6.02.2019 2:58:36 (GMT+10:08:36 PM). There were 4 messages sent during that time period. The first message, with ID "secret", was sent by Wonder Woman and contained information about the group "Secret". It also had an attachment that specified a package waiting for Han Solo. At UTC 05.02.2019 07:17:49, Wonder Woman requested that Han Solo drop off the key into a mailbox and send her its coordinates. Han Solo replied that they would be there soon, and the next two messages detailed their arrival at KSC. At UTC 6.02.2019 08:16:09, the group discussed the Declaration of Independence. They then went to the Library of Congress and found nothing. However, at UTC 10.02.2019 1:36:37 (GMT 2:36:37 PM), they discovered it was holding a private event. At UTC 6.02.2019 2:58:51 (GMT 08:51:51 PM), they were able to retrieve the data from the Declaration of Independence and gave it back to Wonder Woman in 8-9 days when they returned to Europe.
